PRODUCT 05

HEAT PUMP

HP / HP BOX

The Heat Pump series boasts a streamlined, high-efficiency design featuring A+++ energy levels, eco-friendly R290 refrigerant, and advanced noise reduction technology. Through the Fox ESS App and web platform, users can intelligently configure their heating system remotely and monitor real-time operating data via integrated Wi-Fi or LAN modules. We offer the versatile HP Series for stable performance in temperatures as low as -25°C and the all-in-one HP Box Series for a simplified, space-saving installation, ideal for residential and commercial energy-saving scenarios.

HP

Single-Phase/three-Phase

- R290 refrigerant.
- High efficiency A+++ energy level.
- Full DC inverter technology.
- Noise reduction technology.
- Stable running at -25°C ambient temperature.
- Smart control family.
